

# ARCH. ZBIGNIEW SZTOBRYN AGE.28

## EDUCATION

- **WARSAW UNIVERSITY OF TECHNOLOGY**
- **ARCHITECTURE AND URBAN PLANNING**
- 09.2010-06.2013;  
09.2014-09.2015

I started studying at the Faculty of Architecture Warsaw University of Technology. I took an active part in scientific group of New Media which dealt with modern computer techniques that accelerate design process.

The study program itself included a whole range of subjects, which specifically prepare students for the perception of architecture and the work itself. Starting from the architectural design, urban planning, construction, technology, ending with the class of construction and statics.

## DETAILS

## CAREER

- **BNCONCEPT WARSAW**
- 02.2013-09.2013;  
03.2015-11.2015

My first professional experience gained in Warsaw design studio called BN Concept. I dealt with concepts of interior design and executive projects. It was student internship, which then resulted in further cooperation. It gave me a chance to develop a parallel professional practice during my study program

- **NI ARKITEKTER OSLO**
- 08.2013-09.2014

Design studio in Oslo, Norway. Along with few teammates I worked on projects of various types. Starting with development of single-family homes to multifamily housing.

Personally I carried out the documentation and created graphics and visuals as well. We took part in the competition for multi-family housing in Gavle, Sweden winning 3rd prize

- **ARTIM KATOWICE**
- 06.2016-02.2017

Office in Katowice. Over the half year as it was devoting the job full-time and learned a lot. Among others design approval of small and medium-sized volumes. I was involved in projects in areas of historical preservation.

I was involved in drawing up the documentation, reconciliations, making visuals, visualizations and layouts.

- **GIGAARCHITECTS KATOWICE**
- 03.2017-05.2018

I learned how to make full detailed construction drawings. On my own I carried out design buildings up to 300sq m. I went through contact with clients, coordinated installers, constructors and made complete technical documentation.

As a team we took a part in architectural competition - concept for main square in Stalowa Wola city. It resulted with 3rd prize.
